

Child Sexual Abuse Case by Type and by Nature from 2010 to 2020

(2) Number of Child Protection Case (CPC) by Type of Sexual Abuse#

Type of Sexual Abuse	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Incest	10	11	10	6	11	4	11	11	14	11	12
Sexual intercourse with relatives	5	3	3	3	2	0	2	2	1	1	1
Sexual intercourse with non-relatives	62	76	89	77	54	68	51	70	62	78	93
Other	261	220	237	273	219	203	234	236	224	219	214
Total	338	310	339	359	286	275	298	319	301	309	320

#One or more than one type(s) could be selected under sexual abuse case. Thus, the total number of type may not equal to the total number of sexual abuse case.

(6) Number of Sexual Abuse Case by Nature of the Incident

Nature of Case	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
The incident was considered as <i>a harm/maltreatment to a child</i> in the Multi-disciplinary Case Conference on Protection of Child with Suspected Maltreatment (MDCC) or by all professionals concerned (for cases where MDCC was dispensed with) after the investigation.	284	252	260	268	219	226	258	287	271	289	286
A child was considered of <i>having a high risk of harm/maltreatment in future</i> though <i>the incident was not considered as a harm/maltreatment to a child</i> in a MDCC or by all professionals concerned (for cases where MDCC was dispensed with) after the investigation.	40	40	55	70	50	31	24	20	19	11	18
The incident was <i>not ascertained as a harm/maltreatment to a child who was also not considered of having a high risk of harm/maltreatment in future</i> in a MDCC or by all professionals concerned (for cases where MDCC was dispensed with) after the investigation but, with analysis on the concrete information available, professionals considered that the <i>harm/maltreatment incident was very likely to have happened</i> .	10	15	21	19	16	16	12	8	7	5	9
Total	334	307	336	357	285	273	294	315	297	305	313
